Permobil M300 Corpus® HD

The M300 Corpus HD takes all the things you love about Permobil's mid-wheel drive and amplifies them. Outfitted with stronger actuators, more powerful motors, and a reinforced Corpus seating system, it's built to withstand the rigors of an active heavy duty lifestyle. Designed specifically for users up to 450 lb, the suspension has been strengthened to provide you with more stability and completed with elegant features like fully adjustable legrests and up to four power seat functions.

Weight capacity— 450 lb

SmartDrive MX2+

SmartDrive's intuitive controls add a power assist for a variety of manual wheelchair scenarios like cruising up hills or over thick carpets. Its lightweight design attaches quickly and its unique OmniWheel design moves with you as you pivot, turn, wheelie, and navigate curbs in style. SmartDrive gives you freedom to do more.

Weight capacity— 331 lb

Specifications

Max user weight	30 – 331 lb
Product dimensions	Length: 15.3" Width: 5.7" Height: 9.5"
Product weight	13.2 lb drive unit
Driving range*	12.3 mi level/no resistance
Motor power	250 W brushless DC
Maximum speed	5.5 mph
Operating temp	-13°F – 122°F
Chair type compatibility	Rigid, folding, tilt-in-space, one-arm drive, and standing

Drive wheel diameter	22", 24", 25", 26"
Warranty	2-Year limited warranty
Bluetooth® LE	FCC ID QOQBT113 IC ID 5123A-BGTBLE113

**Performance measurements will vary based on user and chair characteristics, driving and battery conditions.*

The SmartDrive has been tested and conforms to all applicable requirements of ANSI/RESNA Standards for Wheelchairs - Volume 1 and Volume 2 and EN 12184.

A wheelchair's specifications provided by its manufacturer may be slightly affected by the addition of the SmartDrive.

Cushions & back supports

ROHO Contour Select

No weight limit when properly sized to cushion and individual.

ROHO® Hybrid Elite® SR® Single Compartment cushion*

Ideal for individuals who May require accommodation of pelvic asymmetry, up to approx. 2"
May require pelvic and lower extremity positioning and a more stable environment for transfers

Dimensions Width: 13.75" – 23.75"
Depth: 14.75" – 22.75"
Height: 4.25" without load

Weight limit Available up to 500 lb

ROHO Hybrid Elite Dual Compartment cushion*

May require correction of pelvic asymmetry (medial lateral), up to approx. 2"
May require a more stable environment for transfers

Dimensions Width: 13.75" – 23.75"
Depth: 14.75" – 22.75"
Height: 4.25" without load

Weight limit Available up to 500 lb

ROHO CONTOUR SELECT® cushion

May require accommodation of pelvic asymmetry, up to approx. 1"
May need correction of pelvic asymmetry (medial lateral AND anterior posterior)
May require different positioning of the left and right femur

Dimensions Width: 14.5" – 24.25"
Depth: 15.25" – 22"
Height: 2.25" – 4.25"

Weight limit No weight limit on properly sized cushions

**Hybrid Elite images do not show the cushion cover, which is required for use.*

ROHO QUADTRO SELECT® HIGH PROFILE® cushion

Ideal for individuals who May be at risk for or currently have skin/soft tissue breakdown and/or any category/stage pressure injury
May require accommodation or correction of medial lateral and/or anterior posterior pelvic asymmetries, up to approx. 3"
May require different positioning of the left and right femur

Dimensions Width: 11" – 26.25"
Depth: 11.75" – 23.75"
Height: 4.25"

Weight limit No weight limit on properly sized cushions

ROHO QUADTRO SELECT® MID PROFILE® cushion

May be at risk for or currently have skin/soft tissue breakdown and/or any category/stage pressure injury
May require accommodation or correction of medial lateral and/or anterior posterior pelvic asymmetries, up to approx. 2"
May require different positioning of the left and right femur

Dimensions Width: 11" – 26.25"
Depth: 11.75" – 23.75"
Height: 3.25"

Weight limit No weight limit on properly sized cushions

ROHO ENHANCER® cushion

May require accommodation of pelvic asymmetry, up to approx. 1"
Require positioning of the pelvis and lower extremities
May need increased lateral support
May need to partially offload the ischial tuberosities

Dimensions Width: 14.75" – 20"
Depth: 14.75" – 20"
Height: 2.25" – 4.25"

Weight limit No weight limit on properly sized cushions

ROHO HIGH PROFILE Dual Compartment cushion

May be at risk for/or currently have skin/soft tissue breakdown and/or any category/stage pressure injury
 May require accommodation of pelvic asymmetry, up to approx. 3"
 May require correction of pelvic asymmetry (medial lateral and/or anterior posterior)

Width: 14.75" – 20"
 Depth: 14.75" – 21.75"
 Height: 4.25"

No weight limit on properly sized cushions

ROHO HIGH PROFILE Single Compartment cushion

May be at risk for/or currently have skin/soft tissue breakdown and/or any category/stage pressure injury
 May require accommodation of pelvic asymmetry, up to approx. 3"
 May require maximum amount of immersion and envelopment

Width: 11.5" – 26.75"
 Depth: 11.5" – 21.75"
 Height: 4.25"

No weight limit on properly sized cushions

ROHO MID PROFILE Single Compartment cushion

May be at risk for/or currently have skin/soft tissue breakdown and/or any category/stage pressure injury
 May require accommodation of pelvic asymmetry, up to approx. 2"
 May require immersion and envelopment

Width: 11.5" – 26.75"
 Depth: 11.5" – 21.75"
 Height: 3.25"

No weight limit on properly sized cushions

Comfort Embrace cushion

May need postural alignment
 May need support to the greater trochanters

Width: 18" – 24"
 Depth: 14" – 24"
 Height: 4" for Zero elevation, 3.75" for Anti-Thrust

Hälsa Plus bed

Hälsa Plus is an electric, adjustable home care bed with a weight capacity of 500 lb. It offers countless head and foot positioning options with the 10-button hand pendant and is easy to disassemble for transportation and storage. Available in four width options: 36", 39", 42" or 48".

Other offerings

Bodypoint belts

Bodypoint padded and non-padded hip belts come in extra-large 81" lengths and are comfortable, simple-to-use, and easy to clean.

Rifton E-Pacer

The E-Pacer has a sit-to-stand lift functionality that enables gait training with large or highly dependent clients. Its strong and stable frame can accommodate users up to 6' 5".

Rifton TRAM

Capable of lifting and transferring clients of varying abilities and body types, the TRAM is easy to maneuver in tight spaces and simple to operate. Can also function as a gait training device.

Resten Select bed

The new Resten Select adjustable bedframe can accommodate almost any position to help with better sleep, improved circulation, and decreased back pain. Key features include programmable massage, memory settings, USB charging ports built-in, and a wireless controller. Queen size weight capacity is up to 600 lb.

Product overview

Weight limit	—	350 lb	350 lb

Weight capacity— 920 lb

Serene Air

Serene Air is a dual mode therapeutic surface with Alternating Pressure Therapy and Pulsation options that assist in wound healing and prevention. It offers 120 lpm of Low Air Loss for effective microclimate control and supports clients weighing up to 920 lb. Additional features include seat inflation for the Fowler position, a quilted top cover, and a choice of APT operating cycle times. Available in three widths: 36", 42" or 48".

Weight capacity— 450 lb

Domus Edge

Domus Edge Alternating Pressure Therapy system takes powered therapeutic surfaces to the next level with the added safety feature of a 3" wide transfer edge. This helps enable safe and easy transfers while also reducing falls and entrapment for clients weighing up to 450 lb. System has seat inflation for the Fowler position, a quilted top cover, and lower static cells that prevent clients from bottoming out. Available in 36" and 42" widths.

Weight capacity— 350 lb

Adapt 2

Adapt 2 Series modular mattress systems are an innovative way to reduce the effects of pressure, friction, and shear. Up to four foam inserts or ROHO mattress sections can be added to the surface based on the individual client's needs. Available in three widths: 36", 39" or 42" and has a weight capacity of 350 lb.

Weight capacity— 800 lb

Align Bariatric

This unique multi-zone surface with Shear Reduction Technology and firm borders is an ideal sleep surface for clients weighing 600-800 lb. There are differing immersion levels that match the contours of the body, and the washable Recovery 5 cover provides incontinent protection. Available in six widths from 36" – 60".
